

Hen Harrier ID	Date last transmission	Status according to Natural England	Status according to C4PMC
Grainne	14 Aug 2018	Tag stopped transmitting due to end of battery life	Tag stopped transmitting due to end of battery life
Hattie	2 Dec 2017	Tag stopped transmitting due to end of battery life	Tag stopped transmitting due to end of battery life
John	1 Oct 2017	Missing Fate Unknown (Yorkshire Dales)	Currently lost but thought to be alive & well
Sorrel	Sept 2023	Alive	Alive & well known to be flying around the uplands transmitting regularly
Dru	13 June 2022	Dead, killed on nest defending 4 chicks	Killed by avian predation sitting on nest
Sofia	Sept 2023	Alive	Alive & well known to be flying around the uplands transmitting regularly
Mabel	2 Oct 2018	Missing Fate Unknown (North Pennines)	Currently lost
Tom	23 Oct 2018	Missing Fate Unknown (South Wales)	[Not mentioned]
Barney	1 Nov 2018	Missing Fate Unknown (Bodmin Moor)	[Not mentioned]
Frank	Sept 2023	Alive	Alive & well known to be flying around the uplands transmitting regularly
Jasper	26 Oct 2019	Dead, natural death	Died of known natural causes
Jimmy	12 Jan 2020	Dead, natural death	Died of known natural causes
Alex	15 Aug 2019	Dead, natural death, most likely predation	Died of known natural causes
Rosie	23 Mar 2020	Missing Fate Unknown. Possible tag failure: In 2021 and 2022 an unidentifiable female fitted with a Lotek transmitter was recorded breeding in Northumberland and Bowland respectively. Final transmission location withheld; sensitive roost site	Transmitter failed though seen breeding in Bowland. Assumed to be alive and well

Colin	17 April 2021	Missing fate unknown. Likely tag failure: subsequently identified from photographs. Bred 2022 identified by GPS tag with one aerial snapped. Final transmission location withheld; sensitive nest site	Transmitter faulty however alive and well and seen breeding at sensitive nest in Northumberland
#57280	19 July 2019	Dead. Bird fledged then returned to the nest and was predated along with 2 of its siblings	[Not mentioned]
['Colin's dad']	[19 April 2019]	[Doesn't exist in database]	Died from predation
Teddy	27 Oct 2019	Missing Fate Unknown. Possible tag failure: In 2021 and 2022 an unidentifiable female fitted with a Lotek transmitter was recorded breeding in Northumberland and Bowland respectively	Failing tag but thought to be alive and well
R1-M1-19	21 May 2020	Missing Fate Unknown (Cumbria). Bird wintered in France, MFU soon after return to UK	Alive and well and living in France
R1-F1-19	1 April 2020	Missing Fate Unknown. Possible tag failure: In 2021 and 2022 an unidentifiable female fitted with a Lotek transmitter was recorded breeding in Northumberland and Bowland respectively	[Not mentioned]
R1-M2-19	19 Sept 2019	Missing Fate Unknown (Yorkshire Dales)	[Not mentioned]
R1-M3-19	5 May 2020	Missing Fate Unknown (Atlantic Ocean)	[Not mentioned]
R1-M4-19	9 Sept 2019	Missing Fate Unknown (Co Durham)	[Not mentioned]

Kelly	4 Apr 2021	Missing Fate Unknown. Possible tag failure: transmissions intermittent up until last known fix, large error radius. In 2021 and 2022 an unidentifiable female fitted with a Lotek transmitter was recorded breeding in Northumberland and Bowland respectively. In August 2023, a bird was photographed in County Durham resembling this bird. It was possible to identify a BTO ring on left leg and a second generation Lotek transmitter meaning this can only be one of two birds (Harriet or Kelly)	Transmitter failed but known to be alive and well in Bowland
Ned	11 Feb 2022	Bird dead in-situ (Spain)	Intermittent transmissions
Harriet	25 July 2020	Missing Fate Unknown (Cumbria)	Currently lost, fate unknown
Harold	19 Sept 2020	Missing Fate Unknown. Possible tag failure: In 2021 and 2022 an unidentifiable female fitted with a Lotek transmitter was recorded breeding in Northumberland and Bowland respectively. In August 2023 a bird was photographed in County Durham resembling this bird. It was possible to identify a BTO ring on left leg and a second generation Lotek transmitter meaning this can only be one of two birds (Harriet or Kelly)	[Not mentioned]

Free	12 Apr 2022	Dead. Recovered - persecution. Bird found decapitated and with ringed leg removed	Died of likely persecution
Fortune	16 Sept 2020	Missing Fate Unknown (N'land)	Currently lost, fate unknown
#201118	9 July 2020	Dead. Thought to be natural death caused by goshawk predation. Transmitter & ringed leg recovered under goshawk nest	Killed by goshawk predation
Watson	18 Oct 2020	Dead. Natural death	Died to natural causes
#201126	6 July 2020	Dead. Remains of bird and tag recovered near nest site post fledging - most likely avian predation. Final transmission location withheld; sensitive Goshawk and Peregrine nest site	Killed by likely peregrine predation
Asta	21 Apr 2021	Dead. Recovered - persecution. Tag recovered attached to remains of carrion crow, in days before recovery the bird had an established home range in the N. Pennines around Gilmonby Moor	Died from persecution
Ingerid	22 Sept 2021	Bird dead in-situ (Spain)	Died after intermittent transmissions
Lagertha	19 Dec 2020	Missing Fate Unknown (Dorset). Last fix is plotted over built up area as it is of low accuracy, bird recorded roosting at nearby estuary	Thought to be living in built up urban area
Martin	7 Mar 2021	Missing Fate Unknown (Atlantic Ocean)	Currently lost, fate unknown
Susie	Sept 2023	Alive	Alive and well in YDNP
Solo	14 Aug 2020	Missing Fate Unknown (Lancashire)	Fate unknown, seemingly lost
R1-M1-20	20 Oct 2020	Dead. Natural death.	Died of natural courses [sic]
R1-M2-20	12 Jun 2023	Missing Fate Unknown (Co Durham)	Alive and well

R1-M3-20	Sept 2023	Alive	[Not mentioned]
R1-M4-20	20 Sept 2020	Missing Fate Unknown (North Pennines)	[Not mentioned]
R2-M1-20	Sept 2023	Alive	Currently lost, fate unknown
R2-F1-20	15 Nov 2021	Missing Fate Unknown (North Pennines)	[Not mentioned]
R2-F2-20	29 July 2023	Dead. Recovered - awaiting PM results. Final transmission location temporarily withheld at police request	Died awaiting cause of death
R2-F3-20	Sept 2023	Alive	Alive and well
Amelia	26 Jan 2022	Missing Fate Unknown. Possible tag failure: Female with satellite transmitter identified several kms away from Amelia's tags last known fix in Bowland, bred successfully with no associated data	Alive and well with intermittent transmission
Val	19 Nov 2021	Dead. Likely natural death. Recovered - 23/05/22 - Likely predation and secondary scavenged, tag restarted transmitting a mortality signal in spring 2022 enabling recovery using scanning equipment	Died due to likely avian predation
Percy	19 Nov 2021	Dead. Likely natural death. Recovered by RSPB Scotland 22/04/22	Died of natural causes
Lydia	22 Mar 2022	Missing Fate Unknown. Final transmission location withheld; sensitive Goshawk nest site	Died from likely goshawk predation
Pete	Sept 2023	Alive	Alive and well
Jasmine	12 Dec 2021	Missing Fate Unknown (Yorkshire Dales)	Currently missing
Josephine	14 Aug 2021	Missing Fate Unknown (Northumberland)	Currently missing
Ethel	9 Jan 2022	Missing Fate Unknown (Northumberland)	Currently missing

R1-F1-21	19 Oct 2022	Missing Fate Unknown (North Sea)	Currently missing
R1-M1-21	1 Dec 2022	Missing Fate Unknown (Yorkshire Dales)	[Not mentioned]
R1-M2-21	6 Mar 2022	Dead. Natural death. Avian influenza. Recovered 6/3/22	Died of avian influenza
R2-M1-21	11 June 2023	Missing Fate Unknown (Yorkshire Dales). Final transmission location temporarily withheld at police request	[Not mentioned]
R2-M2-21	27 Oct 2021	Dead. Natural death. Final transmission location withheld; sensitive roost site. Last transmission 27/10/21 recovered 28/10/21	[Not mentioned]
R2-M3-21	27 Oct 2021	Dead. Natural death	Died of natural causes
R2-F1-21	24 Sept 2021	Missing Fate Unknown (Northumberland)	Currently missing fate unknown
Rodney	Sept 2023	Alive	Alive and well
Harvey	14 May 2022	Missing Fate Unknown (North Pennines)	Currently missing
Jenny	8 Aug 2022	Missing Fate Unknown. Final transmission location withheld; sensitive Goshawk nest site	Died from likely goshawk predation
Bernie	Sept 2023	Alive	Alive and well
Craig	Sept 2023	Alive	Alive and well
Reuben	24 Oct 2022	Failed to thrive, did not leave natal area, tag transmitted one weak fix Oct 22. Final transmission location withheld; sensitive nest site.	Failed to leave nesting area
Penelope	Aug 2023	Alive (Aug 2023 – no update for Sept 2023)	Alive and well
Nicola	3 Apr 2023	Missing Fate Unknown (Yorkshire)	Currently lost and location unknown

R1-F1-22	30 Apr 2023	Bird killed at or near nest with 5 eggs, flight feathers found in and around nest no sign of bird or tag, likely predation. Final transmission location withheld; sensitive nest site.	Killed at nest from predation
R1-F2-22	29 Apr 2023	Presumed tag failure. Bird breeding and photographed into mid-May at breeding site with damaged aerial, aerial almost detached from transmitter hanging at side of bird, transmitter and harness in place. Bird alive after last transmission. Final transmission location withheld; sensitive nest site	[Not mentioned]
R1-F3-22	30 Mar 2023	Missing Fate Unknown (Yorkshire). Final transmission location temporarily withheld at police request. Previously listed as transmitting May 2023 in due to intermittent transmissions	Currently lost and fate unknown
R1-F4-22	Sept 2023	Alive	Alive and well
R1-M1-22	17 Aug 2022	Missing Fate Unknown (Yorkshire)	Currently lost
R2-M1-22	1 Apr 2023	Missing Fate Unknown (Yorkshire). Final transmission location temporarily withheld at police request	Currently lost
R2-M3-22	21 May 2023	Missing Fate Unknown (Northumberland)	Currently lost
R2-F1-22	15 Dec 2022	Missing Fate Unknown (Yorkshire Dales)	Currently lost fate unknown
R3-M1-22	23 Aug 2022	Dead. Recovered - natural	Died of natural causes

R3-F1-22	14 Dec 2022	Dead. Recovered - awaiting PM. Final transmission location temporarily withheld at police request	Died and awaiting results
R3-M2-22	5 Oct 2022	Missing Fate Unknown (Cumbria)	Currently lost
R3-F2-22	Sept 2023	Alive	Alive and well
Rubi	6 July 2023	Missing Fate Unknown (Co Durham)	Currently lost
Edna	Sept 2023	Alive	Alive and well
Ken	Sept 2023	Alive	Alive and well
R1-F1-23	23 July 2023	Missing Fate Unknown (Co Durham)	Currently lost
R1-F2-23	24 Aug 2023	Missing Fate Unknown (Northumberland). Final transmission location temporarily withheld at police request	Currently lost
Gill	Sept 2023	Alive	Alive and well
R2-M1-23	Sept 2023	Alive	Alive and well
R2-F1-23	Sept 2023	Alive	Alive and well
R2-M2-23	Sept 2023	Alive	Alive and well
R2-F2-23	Sept 2023	Alive	Alive and well
Hope	Sept 2023	Alive	Alive and well
Hazel	Sept 2023	Alive	Alive and well
Rhys	Sept 2023	Alive	Alive and well
Cillian	Sept 2023	Alive	Alive and well
R3-F1-23	11 Aug 2023	Missing Fate Unknown (Co Durham)	Currently lost
R4-F1-23	Sept 2023	Alive	Alive and well
R4-M1-23	Sept 2023	Alive	Alive and well
